

The foundation arises.**1928**

Eugen Klöpfer founded an engineering office for electric materials in Dortmund.

1938

Eugen Klöpfer Ingenieurbüro took over the agencies of VOIGT & HAEFFNER AG, Frankfurt/Main and the transformer company KOCH & STERZEL AG, Dresden.

1945

After the war, the sales activities for Messrs. VOIGT & HAEFFNER AG were renewed. The contractual relations with KOCH & STERZEL AG could not be continued due to the separation of Germany.

Extension of the spectrum.**1952**

Foundation of Infratherm GmbH, Dortmund, infrared radiators, electric convectors as well as thermal plants for the glass and mirror glass industry have been planned and manufactured later on.

1953

The CONTI-ELEKTRO AG was founded as sales organization with own branches. As a consequence, the agency of VOIGT & HAEFFNER AG expired. The Eugen Klöpfer Ingenieurbüro started the construction of control panels according to customer-specific requirements.

1955

The Infratherm GmbH traded under the name of Klöpfer Wärmetechnik GmbH now.

1960

The Klöpfer Wärmetechnik GmbH extended its manufacturing range by heat tracing and heat exchangers.

1967

The founder of the company, Eugen Klöpfer, passed away. Karl-Hugo Klöpfer-Waldmann took over the management of Eugen Klöpfer Ingenieurbüro and Klöpfer Wärmetechnik GmbH.

1972

Merger of Eugen Klöpfer Ingenieurbüro and Klöpfer Wärmetechnik GmbH in the limited partnership Eugen Klöpfer. Structuring of all activities in the field electrical engineering, heat technology and mechanical engineering.

1976

Nomination of Alfred Beimdick and Friedrich Hinz as managing directors.

1977

Partnership of Alfred Beimdick and Friedrich Hinz as limited partners.

1978

Participation and later takeover of Messrs. Huppertz & Schneider GmbH & Co., Waltrop, today's Hard- und Software Technologie GmbH & Co. KG (H&S), Dortmund.

1979

The first own production and administration building was erected for the company range electrical engineering, heat technology and mechanical engineering. It was extended in 1981 and 1984.

1980

Purchase and takeover of the management of Messrs. Elmess, today Elmess-Thermosystemtechnik GmbH & Co. KG, Uelzen.

1982

The main shareholder Karl-Hugo Klöpfer-Waldmann passed away. The company shares were transferred to the families Beimdick and Hinz.
Electrical Heating Systems in the Focus.

1986

The business field heat technology was the first field that has been separated from Eugen Klöpfer GmbH & Co. KG and became independent under today's Klöpfer-Therm GmbH & Co. KG.

1987

Move into the new, modern, three-storey office with integrated workshop and warehouse at today's location in Dortmund-Wambel.

1988

Purchase of a further manufacturing hall, initially as central warehouse, later on as manufacturing hall for Klöpfer-Elektrotechnik and H&S.

1994

The manufacturing area was doubled by extension of a modern manufacturing hall.

2000

A new generation has taken over the company's management. Volker Hinz and Engelbert Brück were nominated as managing directors.

2004

Takeover of the cable type heater technology from Haldor Topsoe, Denmark, extension of the manufacturing area on the adjoining site.

2007/2008

extension of workshop and office area by 900 qm in an adjoining new building, move-in May 2008.
